

## The Launceston Preparatory School Facilities

We believe that children coming to The Launceston Preparatory School should feel as though they are coming from one “home” to another! Thus our buildings are deliberately kept as inviting houses, maintaining the physical appeal of homes rather than institutions.

The school grounds offer attractive, shady garden lawn areas for recreation. They incorporate several networks of equipment that have been specifically designed to develop children’s social and physical skills.

We also believe in utilizing existing community resources rather than duplicating them. Our school is located in an area rich with marvellous facilities that we use regularly. These include:

- Nearby sporting fields
- PCYC
- Hart Street Tennis Centre
- Hobblers Bridge netball courts
- Various swimming centres

Facilities such as these augment our own and uphold our belief in the importance of immersing children in their local communities.
